Thanks, Doug. Let's talk about it more on Wednesday's caucus call.

Good Morning Anthony, yes I do think we need to have both opportunities. One item would be specifically available for Tribal Leaders and upper staff to discuss the Back Forty issue and the other should be more oriented to a technical breakout for staff that are dealing with these issues on day to day basis. But we may also want to add some policy discussions into the track discussion, similar to what we did last year on the Treaty Rights and delegated authority session with Barbara. Thank you.

Doug

Doug: Do you think we should take up the mining issues at the R5TOC, besides at TEPM? Let's talk about that. Hope all is well.

I will place it on the Agenda for two hours and send another version out to the Caucus before the call. For now, I will titled it "Mining in Region 5"

**Subject:** Proposed Item for TEPM

Hi Ella, so I would like to propose an item for the TEPM although I don't have the entire details as of yet, it would be a mining related session that I think we would like to take up the available two hours that are left in the Wednesday afternoon track under multi media. I have touched base with Melanie Burdick very briefly last week and she was also interested (I think ☺) and was going to talk to Krista McKim as well. I know the RTOC call next week is scheduled for planning items on TEPM, so I just wanted to make sure and get this in beforehand so it can be reserved on the draft schedule. Let me know if I need to send this to anyone else in addition to yourself. Thanks.
